2:00 Your Time

Ace Troubleshooter

It's two o'clock your time
Midnight mine and I could die to have you here
It's two o'clock your time
Midnight mine and I could die to have you hereCall you up, I'm fat away
Wake you up, but it's okay
You don't mind
I'm not scared to say it now
It's not fair and yet somehow
We're doing fineIt's two o'clock your time
Midnight mine and I could die to have you hereWatch the changing leaves again
But I don't remember when
We saw them fall
When the snowflake covers blue
I will come back home to you
And watch them allIt's two o'clock your time
Midnight mine and I could die to have you here
It's two o'clock your time
Midnight mine and I could die to have you hereEvery time you're on my mind
It just seems to unwindIt's two o'clock your time
Midnight mine and I could die to have you here
It's two o'clock your time
Midnight mine and I could die to have you hereIt's two o'clock your time
It's two o'clock your time
It's two o'clock your time
