

# Suffocating Right

## Neuroticfish

From beneath the bedroom floor  
it is hunting me  
Silent clicking of the door  
and it sucked me in

Was I right to overstep the border  
that leads me to this place  
Was I right ignoring all the warning signs  
excepting to fall from grace

Am I suffercating right  
Is there anybody watching  
Is there anything outside  
That might keep me here  
Am I sufforcating right  
Is there anybody listening  
Is there anything inside  
That can stop me here

From behind the bedroom door  
it is calling me  
A silence never felt before  
And I'm sucked right in

Was I right to overstep the thin line  
that keeps me from this place  
Was I right rejecting all the spoken words  
ignoring to fall from grace

Am I suffocating right  
Is there anybody watching  
Is there anything outside  
That might keep me here  
Am I suffocating right  
Am I suffocating right  
Is there anybody listening  
Is there anything inside  
Is there anything inside  
That can stop me here

Am I suffocating right  
Am I suffocating right  
Is there anybody watching  
Is there anything outside  
Is there anything outside  
That might keep me here  
Am I suffocating right  
Am I suffocating right  
Is there anybody listening  
Is there anything inside  
Is there anything inside  
That can stop me here

And I'm sucked right in  
And I'm sucked right in
