

It's No Mistake

Mickey Guyton

Ever since I met you
I am all about you
Never wrote a love song
Until I felt you
Feeling like a new me
Fit together perfect
all the time I wait it
But you are worth it.
I knew that
The minute you walk in
There is no doubt
I don't want to live without you
It's no mistake
I am with you
I love the way
you do what you do
when look at your face
And then I knew right away
It's no mistake I am with you We don't need a party
To keep dancing and in your arms its like living in a mansion
So fancy I couldn't imagine I don't wanna sleep cause I'll miss out on the action.
I knew that
minute you walk in
there is no doubt
I don't want to live without you
It's no mistake
I am with you
I love the way
you do what you do
one look at your face
And then I knew right away
It's no mistake
I am with you Woo hoo ouu ou ouu ou ho ouu ou
Woo hoo ouu
Woo ho ou ouu ouu uh It's no mistake
I am with you
I love the way
you do what you do
When i look at your face

then I knew right away
It's no mistake
I am with you
