

Awake

Snoop Dogg

You're awake
When lightening strikes you know
You're awake
It definitely starts glowing
All the girls that's in this room
Get up close, you'll feel so much better
It feels so good to know
You're awake
With the G come to the lightPut your hands together and close your eyes
Smell the aroma, visualize
Do not try to get higher than me
Why stop it there? Get high as can beIt's time to spark up some
Feel the blaze
The number one (there's nothing new under the sun)
Feel the awakeYou're awake
When lightening strikes you know
You're awake
It definitely starts glowing
All the girls that's in this room
Get up close, you'll feel so much better
It feels so good to know
You're awake
With the G come to the lightMy name is Snoop Dogg, not to complain
I gets my groove on, I do my thing
My planet's Krypton, home of the freaks
Come get your moon rocks, I am a GIIt's time to spark up some
Feel the blaze
The number one (there's nothing new under the sun)
Feel the awakeYou're awake
When lightening strikes you know
You're awake
It definitely starts glowing
All the girls that's in this room
Get up close, you'll feel so much better
It feels so good to know
You're awake
With the G come to the lightIt's time to spark up some
Feel the blaze
The number one (there's nothing new under the sun)

Feel the awake You're awake
When lightening strikes you know
You're awake
It definitely starts glowing
All the girls that's in this room
Get up close, you'll feel so much better
It feels so good to know
You're awake
With the G come to the light
