Overcome

Finley Quaye

She took a whiff of my scliff and she started to check my behavior
Take my hand
She said, "Would it be good if you started to look for your savior"
Holy landSmoke on your spliff it will give you lift have a good time
Say my prayers
Fully aware of the people that care in the world
Be my friendI never wanted any struggle, overcome, why don't you come over?
I never wanted any trouble, overcome, why don't you come over?
I only wanted your love, overcome, why don't you come over?
I only wanted your love, why don't you come over?
Why don't you come over?Heaven's above would you give me some love in return
I have learned
Wanted to touch to tell you just how much I love you
Stay with meI'll travel the world I'll be missing you girl and our baby
Ease the pain
Flat on my face, fallen from grace, disgraceful
Our family treeI never wanted any struggle, overcome, why don't you come over?
I never wanted any trouble, overcome, why don't you come over?
I only wanted your love, overcome, why don't you come over?
I only wanted your love, why don't you come over?
Why don't you come over?I only wanted your love, why don't you come over?
Why don't you come over?
