# Simple Song

## Don Williams

It was warm, now it's cold
It was young, now it's old
Love was here, now it's gone
Simple song
Once she did, now she don't
Once we tried, now we won't
How could love go so wrong?
Simple song
Oh, it don't take much to say it
And anyone can play it
All you got to do is live it

And anybody can
Simple tune, simple words
Simple me, simple her
She was here, now she's gone
Simple song
Oh, it don't take much to say it
And anyone can play it
All you got to do is live it
And anybody can
