

# Diamonds Made From Rain

[Eric Clapton](#)

The moment's come and gone  
Every memory leaves a trace  
All that I've come to know  
In the lines upon my face Every storm that I have turned  
Each forgiveness I have earned  
Every shame that's taught me grace  
From you I have learned No love is lost  
No love is lost That everything is shown to me  
I let it wash over me  
Like diamonds made of rain  
You can find joy inside the pain Everything that I've endured  
For the wisdom of a pearl  
I wouldn't change a thing  
You can make diamonds from the rain Every mile of this road  
Every chord that's struck my soul  
You are the melody  
That will soothe me 'til I'm old If the promises are kept  
I'll waive all of my regrets  
I can say I've overcome  
With you, my heart is open No love was lost  
No love was lost That everything is shown to me  
I let it wash over me  
Like diamonds made of rain  
You can find joy inside the pain Everything that I've endured  
For the wisdom of a pearl  
I wouldn't change a thing  
You can make diamonds from the rain
