

Don't Think About Always

Graham Coxon

Your inconsistency
Your lack of will
That perfect heart I know
I cannot fill
Don't think about always
Thinking you're always holding my hand
Don't think about always
Don't think at all I know your life is hard
But so is mine
I'd like to help you but
Ain't got the time Don't think about always
Thinking you're always holding my hand
Don't think about always
Don't think at all I know that I am bad
And you are good
But won't you stay with me
As if you would Don't think about always
Thinking you're always holding my hand
Don't think about always
Don't think at all I'm truly sorry that
I made a mess
Been confused you know
You probably guessed Don't think about always
Thinking you're always holding my hand
Don't think about always
Don't think at all Your inconsistency
Your lack of will
That perfect heart I know
I cannot fill Don't think about always
Thinking you're always holding my hand
Don't think about always
Don't think at all
