Of These Chains

Red

So here we are at the end now
I need to leave
But I only want to stay with youI never asked to be the one
To set me free
Another mask you wore that only I could seeLet me take you when I go
When I go
I don't wanna do this on my own
On my ownI'm breaking free
But of these chains
Oh let this one remain
Let me take you when I goI can still feel you here
Now in this cage
Every link, another piece
Of you, I've savedI'm free to open up the door
To who I was before
And if I let go of these chains
Now, will I float away
Can I just hold on?Oh, let me take you when I go
When I go
I don't wanna do this on my own
On my ownI'm breaking free
But of these chains
Oh, let this one remain
Let me take you when I go.
