Neighbours

Camouflage

Black men leaders cried for freedom
White policemen shot them dead
The survivors get in prison
Based on laws which no one understandsWhite man yawning in his armchair
Smiled while watching white TV
Hundred people death or injured
He never understands this historyWhat can we do, what can we say?
Can it be law to kill your neighbours?
What can we do, what can we say?
Can it be wrong to end it all?Snipers sitting in police-cars
Cautious stroking machine-guns
Never thought of black suppression
They were paid for every hit they haveWhat can we do, what can we say?
Can it be law to kill your neighbours?
What can we do, what can we say?
Can it be wrong to end it all?What can we do, what can we say?
Can it be law to kill your neighbours?
What can we do, what can we say?
Can it be wrong to end it all?
