

Nothing but a Heartbeat

Say Lou Lou

You used to touch, I used to feel
The shivers down my neck when you kissed me
Were they real? You took the hope and left me empty
And then you cry "please, please"
But you and I bleed, bleed Oooo ahh, oooo ahh
Nothing but a heartbeat (x2)
I've got no air in my lungs
Got no bones in my body
There's nothing left inside of me Oooo ahh, oooo ahh
Nothing but a heartbeat They're only words, but words can kill
You wonder when he hits you where it hurts
Is he doing it for the thrill? My hands are numb and I can't feel a thing
But still you try "please, please"
And you and I bleed, bleed Oooo ahh, oooo ahh
Nothing but a heartbeat (x2)
I've got no air in my lungs
Got no bones in my body
There's nothing left inside of me Oooo ahh, oooo ahh
Nothing but a heartbeat No love, no fear
Nothing but a post left here Oooo ahh, oooo ahh
Nothing but a heartbeat (x2)
I've got no air in my lungs
Got no bones in my body
There's nothing left inside of me Oooo ahh, oooo ahh
Nothing but a heartbeat
