

# Sugar (Acoustic)

Karmin

Saw ya out by the pool on the 8th of July  
Didn't think much about it at the time  
Didn't know that I have to cross this line  
Didn't know, didn't know  
I remember the guy who lost his pants  
Took the hit and we laughed and then we danced  
Now I'm around you and I don't trust my hands  
Now that we're cool, we can just chill, we can be friends  
The problem with that's I've gotten in over my head  
I can't think about anybody but you  
Sugar, I can't think about anybody but you  
I can't think about anybody but you  
I can't think about anybody but you  
Take your time, work it out with a bottle of wine  
Give a word, give a wink or give a sign  
Let me know it before I lose my mind  
Let me know, let me know (know, know, know)  
How far do you think that this could go?  
I just signed your name with an X or an O  
We could rush it or we could go slow  
Now that we're cool, we can just chill, we can be friends  
The problem with that's I've gotten in over my head  
I can't think about anybody but you  
Sugar, I can't think about anybody but you, no no no  
I can't think about anybody but you (you)  
I can't think about anybody but you, baby  
I used to be the type like watch and learn  
But you can teach me how the tables turn  
Got a O pro feelin' like an amateur  
Makin' it up as I do it entrepreneur  
If I say the right things, would you come to me?  
If I play the right strings, can I sleight the piece?  
You're the one that I want, I gotta do somethin'  
You got me feelin' right, like uuuh, yummy  
Like ooh, yummy, ooh  
Ooh, sugar, you're so sweet, sweet to me  
Ooh, sugar, you're so sweet, sweet to me

Songwriters

AMY HEIDEMANN, NICK NOONAN
