

# Rollin'

## Luscious Jackson

Can you find a rolling stone that rolls alone?  
Can you find a bus that won't stop running?  
Can you get a good carburetor?  
In the front of the candy store, I keep looking  
I travel light, I travel low because I got no place to go  
You're outside, I walk by thinking of you  
Why do I spend my time thinking of you?  
Yeah, I'm gonna fade away to black today  
Yeah, I'm gonna fade and keep on fading  
Everybody got a Cadillac coming  
Everybody gotta keep on running  
You're outside, I walk by thinking of you  
Why do I spend my time thinking of you?  
He likes to come around  
Coming around and rollin' on through  
He likes to get down  
Gettin' on down to get away from you  
He likes to come around  
Coming around and rollin' on through  
He likes to get down  
Gettin' on down to get away from you  
Can you find a roll and roll, and roll, and roll, and roll, and rollin'?  
Can you find a roll and roll, and roll, and roll, and roll, and rollin'?  
Can you find a roll and roll, and roll, and roll, and roll, and rollin'?  
Can you find a roll and roll, and roll, and roll, and roll, and rollin'?  
You're outside, I walk by thinking of you  
Why do I spend my time thinking of you?
