

# Duck Down!

## The Roots

Yea we gettin' ready to break y'all it's winner take all  
The game is locked we down to the eight ball  
The time is now, it ain't nothin' to wait for  
I'm a king by blood a soldier by nature  
I'm somethin' like a threat to y'all space cadets  
Cause you never met brother nothin' like me yet  
So push another slice into your toast and tighten your vests  
Cause it's a warrior you seein' here tonight in the flesh  
I give you somethin' high voltage double dosage  
Runnin' with these vultures givin' me ulcers  
Which one of these hustlers bringin' the thunder  
'Riq Geez not another man takin' us under  
Nigga please which Philly cat doin' his own thing  
Might say black my give you a code name  
Round my neck see the microphone hang  
Have your lady lips singin' like on soul train  
The niggaz that's a problem is minimal margin  
The Colonel, Captain, Lieutenant, General Sergeant  
Black, one man army move in on your squadron  
You sittin' still you know you a target  
You heard you better duck down! See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!)  
See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!) Yea we gettin' set to get rid of y'all that's what it's headin' for  
The underdog knuckle and brawl with the bigger ball  
I spit what your wig absorb sicker than sycamore  
I'm creatin' a circumstance that you a victim of  
The rebel or the renegade out on the quest  
The super black man runnin' wit a S on his chest  
And stand for the straight struggle to escape the stress  
You think it's sweet tryin' to eat, you ain't taste this yet  
So make y'all steps precautious into the darkness  
Thoughts cold and heartless makin' me nauseous

Gettin' more remorse for what I done  
If the lawyers and courts wonder what I run  
You see the liberty is free but just for some  
How you a gangster and you scared to bust your gun  
For the call, trust your fam' and trust nobody at all  
Seein' brothers gettin' struck down  
You better duck down! See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!)  
See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!) I can feel somethin' for sure, I've been up in here before  
A gladiator in a coliseum ready for war  
That old timer holdin' his revolver set to blow  
Just like a gladiator at whoever stick his head in the door  
And one who been through it all, anything go  
Rather give it to you straight 'stead of speakin in codes  
'Cause man, that bullshit can get you riddled with holes  
If you ain't insured than the hospitals is close  
You got to go up-town while ya leakin' on the ground  
In cases like these, you need to duck down  
You're five dollar toys, I'm a million dollar man  
Esquire 'Riq Geez go according to plan  
I'm thinkin' outside the box, off the blocks  
An outside your concept of time, off the clocks for real  
Well it's Black Thought your boss DJ  
However you brothers weigh that's what ya gonna pay See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!)  
See me comin' better tuck those chains  
Cause you don't wanna feel them thangs  
If you want it, you can get it baby  
You know you need to get low  
Duck Down! (Duck Down!)
