

# Backlash

## Roomful of Blues

I had it made, I never strayed  
From a course that somebody else laid  
I clenched my fists, I never miss  
    One nite  
    (One nite)  
You find that ya can't turn back  
    So it's goodbye to the past  
Here it comes, here it comes feel it comin'  
    Backlash, backlash, backlash  
    Oh, yea, it's too bad now, it's a backlash  
    Your time ain't long, you don't belong  
    Maybe so but you hope that they're wrong  
    Thin skin gets thick, it happens quick  
    Like a baby turn her very first trick  
        Hold tight  
        (Hold tight)  
    Hold tight for the ride of your life  
        And the lovers go by so fast  
Here it comes, here it comes feel it comin'  
    Backlash, backlash, backlash  
    Used to love me used to care  
        (Do you care?)  
    Used to want me  
    Here it comes, here it comes I guess that's fair  
Now, do you love me? Do you care? Do you want me?  
    One nite  
    (One nite)  
    We find we're outta, outta time  
Here it comes, here it comes, here it comes, a c'mon  
    Backlash, backlash, backlash
