

# Hurricane

## Emerson Hart

I wish I would have known  
That I'd be reaping what I sown  
    But now I can't stop  
    Now that the hurt's begun  
What have I done, oh what have I done?I pray for a hurricane  
    For a heavy rain  
    To wash over again  
Cause the answer's are out of my hands  
    I've learned not to touch what I love  
    Everything that I touch will get burned  
    So please, wreck meI hold on til it's past  
Cause sometimes a storm's a second chance  
    I need a wind so strong  
I need a raging flood to erase what I've done  
Oh what have I done?So I pray for a hurricane  
    For a heavy rain  
    To wash over again  
Cause the answer's are out of my hands  
    I've learned not to touch what I love  
    Everything that I touch will get burned  
So please, wreck meI wish I would have knownSo I pray for a hurricane  
    For a heavy rain  
    To wash over again  
Cause the answer's are out of my hands  
    I've learned not to touch what I love  
    Everything that I touch will get burned  
    So please, wreck me
