Baby Steps

The Bacon Brothers

(Ohh) (Yeah yeah)
Admit it, we're finished
You don't want me no more (No)
Like a night mare, I lived it
It was too big to ignore (Ooh)
I hear the sirens but they pass me by.
My hazard lights are flashing, somebody, anyone
HELP cause its an emergency.
Someone just wounded my heart.
So HELP, its like a bad surgery and now its time to recharge.
I'm starting over taking,

One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.
Abandonded, yeah I'm crying.
Its like you left me for dead (So dead, so dead)
I'm so broken, my love's frozen.
How do you live with regrets (Oh woah)
I see the memories flash before my eyes.
My tank is running empty, somebody rescue me.
HELP cause its an emergency.
Someone just wounded my heart.
So HELP, its like a bad surgery
And now its time to recharge.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.

Five, six, baby steps.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.
Its unexplainable
Kind of and unattainable
When the person you love aint enough.

I feel so pitiful
Look at my face you'll know the pain is in my eyes.
I need some, help.
HELP cause its an emergency.
Someone just wounded my heart.
So HELP its like a bad surgery and now its time to recharge.
HELP cause its an emergency.
Someone just wounded my heart.
So HELP its like a bad surgery and now its time to recharge.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.
