

The Point

HeyHiHello!

You can do whatever you want you're not stuck with me.
I'll tell you one thing we make history.
You and Me. You're getting closer now
Its getting better now
But you're still so far gone. And I to the point where I don't even wanna know
where you are and where you're going baby (ohh ohh)
same old story I do the point where I don't even wanna see your face anymore anymore I don't want to live with
regret
and wonder why my life is a mess
when all you want is more (more more more) you're getting closer now
still getting better now
but you're still so but your still so far gone And I to the point where I don't even wanna know
where you are and where you're going baby (ohh ohh)
same old story
I do the point where I don't even wanna see your face anymore
anymore You're so far gone.
But I'm moving on I-I never I never felt so alive and now
without you by my side
I'd never I'd never felt so alive
I'm so glad i left you behind
