

Rendezvous

Bruce Springsteen

I had a dream
My love would last forever
I had a dream
Last night she had a dream too
She'll be there tonight
If I'm down then she'll make me feel right
Oohh, rendez-vous Haven't I told you, girl,
How much I liked you
I got a feeling that you liked me too
And if you'll hold me tight
We'll be riders, girl, on the night
Oohh, rendez-vous, I want a rendez-vous I got a feeling that we should stay together
'cause I think our love could be forever
Because I had a dream
My love would last forever
I had a dream
Tonight my dream come true
And if you'll hold me tight
We'll be riders, girl, on the night
Oohh, rendez-vous, I want a rendez-vous You deserve so much more than this, girl
'cause I'm running on the power
And living on the promise
In your last kiss
Because I had a dream
My love would last forever
I had a dream
Tonight my dream come true
And if you'll hold me tight
We'll be riders, girl, on the night
Oohh, rendez-vous, I want a rendez-vous
