Fun Fair

Tahiti 80

You know this thing's got you now
It's moving in circles off the ground
It's like living in your dreams
Where everything is easier than it seemsThe carousel, the merry-go-round
They make you feel you've got no bounds
Drivin' in your bumper car
You feel you could go so farDo you like being there?
Do you like being at the fun fair?
There's no safety net
When you miss the targetYou don't feel anything, anymore
Nobody can hurt you now that
You're in your protective shell
Now you don't fear anything, anymoreWatch out boy, this could be your final cell
Watch out boy, this could be your final cellDo you like being at the fun fair?
Do you like being at the fun fair?
Watch out boy, this could be your final cell
Watch out boy, this could be your final cell
Do you like bein' at the fun fair?
