

# You That May Wither (Instrumental Rehearsal)

## Ved Buens Ende

A distant cry...  
From whom I perished for?  
No...  
You are born...  
...the winterburden I bled your tears once.  
If only I could wither,  
You, That May Wither A distant cry...  
From what I perished for?  
No...  
It was born...  
The winterburden.  
I bled its tears once...  
Oh, if only it could wither,  
wither in the absence of your thoughts. So I cry...
