Eyes Wide Shut

Hale

Eyes wide shut, stuck conscious
I can't sleep 'cause I'm with you
I can feel your skin go through my soul
While yours is somewhere elseBut you, you never saw me there with you
No you don't have a clueEyes wide shut, action cut
I can't sleep 'cause I'm with you
I can feel your skin go through my soul
While yours is somewhere elseBut you, you never saw me there with you
No you don't have a clueAll I have is all I need but all you want is all I'm not
And you can't see that all I'll be is someone who just loves you when you're thereAll eyes can see through
May you bet things can't go wrong while you're with meBut I lie**All I have is all I need but all you want is all I'm not
And you can't see that all I'll be is someone who just loves you when you're there
