I've Got You

What's Eating Gilbert

I, I found my way out
From the bottom of a barrel
No one to take care of me

Then you came along
With your smile from ear to ear
And you made my heart feel whole again

They can hate on me all they want
Call me a user, say you're too young
But in the end, I've got you
And they've got tip

No I'm not bulletproof but
See I can take your cheapshots
'Cause I've been through a whole lot more
And know a good thing
And I'm not letting you go
There's so much that they don't know

They can hate on me all they want
Call me a user, say you're too young
But in the end I've got you
And they've got tip

Yeah they can start all the rumours they want
Call me a cheater, say that I'm scum
But when it's done, I've got you
And they've got shit

Hate on me all they want
Call me a user, say you're too young
But in the end, I've got you
And they've got tip

Yeah they can start the rumours they want
Call me a cheater, say that I'm scum
But when it's done, I've got you
And they've got shit
Yeah when it's done, I've got you

And they've got shit
