You pick up the cards that they're dealing to you

    You can throw down or showdown

    The bluff makes a fool out of you

    The ante goes up and your luck runs down

        It's a strange game

        It's a damn shame

        But somebody's going to lose

        It don't matter -- lose or win

            You can deal 'em again

A handful of hearts and you're playing to win

    It goes down and you're put down

    And that takes it all out of you

    One last hand and you're going for broke

        The cards fall and you take all

    Just when you thought you were through

        It don't matter -- lose or win

            You can deal 'em again

You pick up the cards that they're dealing to you

    You can throw down or showdown

    When love makes a fool out of you
