

War

Royal Flush

Flush is ready for combat, bust gats
You really want to fuck wit this tough cat? Get smacked
'Cuz I ain't scared of shit in this world, black
My 44 impact will solve that, all of that Basically off top, just give me mines and get dropped
By the same kids, that shot the cops inside the coke spot
Oh well, gettin' drunk, another story to tell
New York is like prison, Q Borough's my cell Would be by clientle, you fail to realize it's real
Wit mass appeal, let the blood spill
Don't even see his grill, what the deal?
An overdose of taft, be the nigga ass Only out for cash, master Mayan staff
And in my lab, shorty naked countin' cash
Whip a '96 Path, and put the gun inside the smash
Livin' everyday like it's my last, takin' 5 pulls and pass
Guarantee to blast in this game, wit no shame Cape chain, ice wrist, wit flooded fist
Drivin' is some plush shit, exotic bitches suckin' my dick
It's like a mob flick, speakin' on some mob shit
Some marvelous, the God is confident
The black arsonist that's always startin' shit Who's to blame? Man or cocaine? This world is insane
Drama remain, codefendant hold me down in the game
Smokin' weed wit different names, wet ya crew like rain
And rep in my hood, you knew that I would, blow up ya act, vigga Quick to school a nigga, you be you, blow a
trigga
And he lost his finger, blow him in his spine, make him cripple
Distribute, whole entire world, drug related is the issue
A lot of niggas say I talk too much about my pistol
You fuckin' right I do, you talkin I murder you Push up convertible, we runnin' international
While tech's harassin' you, they wild like animals
You never know what to do, 'fore they challenge you
Domain'll stand still, the way I feel, you got the tray cases
This the tray 8, whatever it takes, I gots to escape I declare war, sensitive niggas that can't score
Break jaws, outlaw nigga you die for
But keep it raw, spark up a war, fuck what you came for
Grab the gun and go for yours, fuck the cords, hit the top boss Don't take a lost, never that, no turnin' back
Official stack, and try to stay more, the phones tap
'Cuz they on my back for sellin' crack bodies and all that
