

Sorry for Everything

Dead By April

Sometime you said, i didnt listen
to your word, that i even made you cry
Maybe i didnt show in every possible way (possible way)
how much i cared

i saw before nothing's in myself
for everything ending this way
maybe i, maybe you
could need this change
im sorry for
for everything

i wished that i
could stop your tears from falling down
probably i'd make it worse
maybe i wasnt always there
but that doesnt mean that i dont care

what ever it was
im sorry for, not being myself
for everything, ending this way
maybe i, maybe you
could need this change
im sorry for
for everything

we're minutes away
from saying goodbye, for all of time
im seconds away, from breaking apart
im sorry for
for everything

im sorry for, not being myself
for everything, ending this way
maybe i, maybe you
could need this change
im sorry for
im sorry for everything
for everything
for everything
