

Victoria

Nazareth

Victoria, Victoria, I could love you for a hundred years
And still want more of yaIt's been a long time now since high school days
But when I'm with you, darling you still amaze me
No one could ever come before ya
God knows how much I still adore yaMy Victoria, Victoria, I could love you for a hundred years
And still want more of yaHey little girl, when we first met
I was shaking so hard you really made me sweat
You opened up my eyes and showed me
You took me by surprise and floored meWe walked to school together
Just a boy and a girl
We talked through all kinds of weather
About giving our love a whirlDo you remember the time at the high school dance
When the Beach Boys sang about good vibrations?My Victoria, Victoria, I could love you for a hundred years
And still want more of yaWe walked to school together
Just a boy and a girl
We talked through all kinds of weather
About giving our love a whirlWe were cruisin' the strip every Friday night
Headin' for the beach in a two tone torc flight
First time I turned and saw you
God only knows I love you
Never anyone before you
Don't you know I still adore you?My Victoria, Victoria, I could love you for a hundred years
And still want more of yaMy Victoria, Victoria, I could love you for a hundred years
And still want more of yaMy Victoria, Victoria, I could love you for a hundred years
And still want more of yaMy Victoria, Victoria, I could love you for a hundred years
And still want more of ya
