

I Don't Wanna Wait (feat. Angel Hart)

Quivver

Sometimes, we can wish too hard to see the light.

And we miss, all the good things that we need.

In this vision we've found something that we can't ignore. Come with me before the sun gets in our eyes.

Cause I don't wanna wait tonight.

What if, under the ??? Of a better day. When we are standing here right next to the world. Baby, baby this is no coincidence. Don't try to stop it, when it's already come.

Cause I don't wanna wait tonight
