But Anyway

Grip Grand

I lied and told her I loved her
She didn't care but anyway
I told her we'd still be friends
And she didn't care but anywayI tried last week for to call her
She wasn't home but anyway
I think I'll spend my life alone
I really don't care right now but anywayIt's a state of affairs and a state of emotions
The kind of thing that you must understand
I tell you one thing, you tell me another
We walk away, maybe then shake handsI'm quitting cigarette smoking
It's bad for me but anyway
I don't think the TV was joking
When it told me this but anywayThe newsman said not to sit on strange toilet seats
It's my life he's trying to save but anyway
I found out that I've got eye cancer
Too many television waves but anywayIt's a state of affairs and a state of emotions
The kind of thing that you must understand
I tell you one thing, you tell me another
We walk away, maybe then shake handsSome day an answer will find us
Quite a long shot but anyway
I think the past, the past is behind us
Be real confusing if not but anywayI put all my hope in tomorrow
It's gonna be great, I can tell but anyway
I see a new, a new day a dawning
I like to sleep late, oh well, but anywayIt's a state of affairs and a state of emotions
The kind of thing that you must understand
I tell you one thing, you tell me another
We walk away, maybe then shake hands
