

# Million Dollar Bills (DJ Trippa T Remix)

Lorde

There's nothing I want but money and time

Million dollar bills and a tick tick tick tick

There's nothing more cruel

Than only nine lives

A limit in spite

Will do the trick trick trick trick We can leave the house lead the party let the people know

Go drown the colors of our minds and watch the cards go There's nothing as fun as coming untied

And running with the kids in the park park park park

There's nothing that hurts like letting you go

Tiger burn eyes in the dark dark dark dark We can leave the house lead the party let the people know

Go drown the colors of our minds and watch the cards go

It's not about just being out with all our people

'Cause we can get in trouble just by going free throw

And now I'm letting you know and now I'm letting you know

And now I'm letting you know and now I'm letting you know
