All I Want

Denver Harbor

Don't close your eyes
Just let me be
The air you breathe
Everything you need
Don't say goodnight
I'll take you there
Anywhere, anywhere you wantLay it all it down
Heavens been found in your arms
All that I know is I won't let go until you do
With nothing left to prove, but everything to lose
And all I know is all I want it is you
All I want it is youJust let me lead
You will follow on
Until the sun comes asking questions now
Then fall to sleep inside my arms
And hear my heart cryin' out for you
Lay it all down
Heavens been found in your arms
All that I know is that I won't let go until you do
With nothing left to prove, but everything to lose
And all I know is:
All I want it is you
All I want it is you
All I want it is you
All I want it is you
