

# Never Be the Same

## The Rubens

I found myself that day  
There was no other way  
I spent some time away  
I'd never be the same I finally was awake  
Like water to my face  
I finally found my place  
I'd never be the same  
I'd never be the same Took something bad, to show me what I had  
Took something sad to remember who I am I was forced to change  
I'm not sure who to thank  
Yeah I was such a waste  
I'd never be the same  
I'd never be the same Took something bad, to show me what I had  
Took something sad, to remember who I am I found myself that day  
There was no other way  
I'd spent some time away  
I'd never be the same
