

Crossroads

Devour the Day

I've been down this road before
a slave to the man like a corporate whore
and i won't do it anymore (no)
I've seen things i shouldn't have seen
stuck my head in the guillotine
but i won't do it anymore (no)

My broken past
my present pain
it won't make me change
because the future calls my name
and i will outlast
until i run this game
because the future calls my name

i look around and i see what's wrong
you take away the money
and the music's gone
and i won't take it anymore (no)
you think the guy in the new tie knows
he'll kiss your ass while he slits your throat
and i won't do it anymore (no)

My broken past
my present pain
it won't make me change
because the future calls my name
and i will outlast
until i run this game
because the future calls my name

the future calls my name
