

Welcome to the City

YOHIO

Well done, welcome to the city
You'll become number one
With a witty tounge
We praise the young
Have a ball, have it all, do whatever
Hit the wall, get the call
And you better pay
There's no other way Throw your pennies in a wishing well
Might get heaven and you might get hell
Thunder, lightning
Ain't that kinda frightning
Saints and sinners on the road to fame
Ain't no winner 'til we know your name
Black, white
Flashlight
Show me what you got Have a good bite out of the city
Take a long cold look at the world
You might crash, burn
Either way you'll learn
Good bite out of the city Free your mind, your behind's gonna follow
Do the crime, do the time
When tomorrow comes
We're the pretty ones
Shop around, settle down, get a job, be a slob
What you get, what you give's
Your prerogative
That's how we live Throw your pennies in a wishing well
Might get heaven and you might get hell
Black, white
Flashlight
Show me what you got Have a good bite out of the city
Take a long cold look at the world
You might crash, burn
Either way you'll learn
Good bite out of the city Show and prove
Do or die
We don't sleep, we don't cry
No, no, we don't cry
Hit 'em low, hit 'em high

Take an eye for an eye
Yeah Have a good bite out of the city
Take a long cold look at the world
You might crash, you might burn
Either way you'll learn
Good bite out of the city (Have a good bite out of the city)
Have a good bite
Take a long cold look at the world
You might crash, burn
Either way you'll learn
Good bite out of the city / Legolas
