

Lovers

Bobby Whitlock

Kiss me like you love me,
You hold me like you want me,
I've got to have you in my life.

Put two arms around me,
And it astounds me,
Nothing ever felt so right.

I can smell your perfume,
lingering in our room.
Warm and tender body next to mine.
Whispering in my ear,
words I'm longing to hear.
I love you, Baby, and everything's alright.

Cause we're lovers, lovers,
Lovers til the end of time.
Baby, we're lovers.
Got to never be no others.
Baby, I'm yours, your mine.

And you know how I feel about you,
I couldn't live with out you
One love, yours and mine, baby,
The two of us together.
Always and forever,
Lovers, til the end of time.

Ohhh, we're lovers... lovers
Baby, lovers, nothing like yours and mine.
Now, we are lovers... got to never be no others.
Lover baby, no loving like yours and mine

We are lovers... lovers,
Oh Baby.

Its about lovers,
Lovers,
There ain't no others, love like yours and mine.
