Same Way Twice (Demo)

Consumed

Do you know the way to see me through the day
It don't feel the same
Feelings put away to stayAll I ever wanted was for you to know my name
All I ever needed was for you to feel the same as meDid you get the picture from what I left you behind?
Do you see my point of view
Are you choosing to be blind?I can't even begin to say
How good it was and what it meant to me
If I had another try I'd never do the same again
Don't want to feel the same way
Feel the same way twice
