

Moving On

Christon Gray

Truth is that I
Don't know where I'm going or how I got here
But I'm moving on
(just move on)
Excuses that I'm human
And I've been doing this for so long
How can I move on?
(just move on)Let's move
Uh, can't ignore these bars anymore
Uh uh ain't gonna happen
Uh uh I've been the Charlie Chaplin of rapping
Uh uh keyword chaplin cause I locked up Charlie
Ain't no silent film
Time to open the caption
The fight's within'
And I'm in an alley with matchboxes
Me and my shadow were slap-boxing
Until I disregarded my God and we had problems
Let me give you a vision I was a boy
Looking up to my dad, he Mister Acularoy
Taking care of the family
He was always employed
He's in love with Leann
She was always his joy
I quit shooting, afraid to miss
I still hear the tune
Of praying lips since 86'
Developed a good shot with bad form
Cause' I ignored him and acted foreign
I fast forward, the whole time
I'm looking back for him
Well it's easier said than done
It's true
All of these options I don't really have a clue
I'm feeling overwhelmed, out of place, confused
All of this thinking and really I just need to move
