

Did I Do That

Mariah Carey

I really hope when you hear this song
That you're happy with somebody new
Baby, because I found a love I can call my own
And I owe it in part to you
Can't stop now , we can't stop
You can't stop, don't try
We can't stop now , we can't stop
You can't stop, don't try
Can't stop now , we can't stop
You can't stop, don't try
We can't stop now , we can't stop
You can't stop, don't try
Don't you know that you seem just a little crazy
You had my trust and intimacy
But you threw it away, just threw it away
And now it's all in the past when I think of you, I just laugh
My friends must have thought I was high
To have given so much to someone not worth my time
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?
You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
You were so insecure and your crew was so immature
Conversations painfully weak
You were much better off when you didn't speak
But boy to tell you the truth, it was my illusion of you
Being somehow destined for me
That had me in a daze but we're not the same in truth
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?

You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
I really hope when you hear this song
That you know it was meant for you
And though your attention span's not that long
Try to do the best you can do
Can't stop now, we can't stop
You can't stop, don't try

We can't stop now, we can't stop
You can't stop, don't try
Can't stop now, we can't stop
You can't stop, don't try
We can't stop now, we can't stop
You can't stop, don't try
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?
You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?
You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?
You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
Funny how sometimes you can really lose your mind
And do things you would never do, did I do that?
You rhapsodize and get caught up in the hype
'Til your senses return to you, love plays you for a fool
