Alright
So if you got ?em, light ?em up
Open your mind
Let?s go to war
Today's the day, the time is here
We take back control and conquer our fears
For as it was written, my friend, so shall it be
I ride with the Most High, who can stand against me?
Ride with me and advance towards the light
In the darkness, I break it down
Slowly roll up and spark this, in this moment on this track
I attack all the lies, we accept it as truth
We were duped by the schoolbooks and teachers
The blind leading the blind through the Garden of Eden
But time after time we had the prophets to lead us
But line after line was written down to deceive us
But they will never defeat us
Until the end of time
I will rebel in the face of all tyrants
The fire burns on high
As above so below, now be careful
Until the end of time
We will fight for the rights of our children
The fire burns inside
My curiosity leads me to Zion
Wake the fuck up
So if you got ?em, light ?em up, warriors
Come out and play
Listen, in the year 2007 AD
The working man got so tired of waiting
Not all those who have eyes will see what I'm saying
Not all those who have ears will hear a note that we playing
Homie, you know me, I don?t fuck with no phonies
All these cronies in this industry can all kneel down and blow me
I came to do battle with the counsel of churches
Politicians and gunmen who would lie, rob, and hurt us
Keep us deaf, blind, and dumb so we can?t find our guns
Asleep when the storm troopers come for our moms
So run, nigga, run ?til you can?t catch your breath

It's too late 'coz you already dead
But you wide awake, you already dead
But you wide awake, you already dead
But you wide awake, you already dead
 You're in a fucking coma
 Until the end of time
I will rebel in the face of all tyrants
 The fire burns on high
As above, so below, now be careful
 Until the end of time
We will fight for the rights of our children
 The fire burns inside
 My curiosity leads me to Zion
Listen carefully, I don't have much time left
 There are so many things I wanna tell you
 For we have to be careful
 I think I'm being watched
Galileo was imprisoned by the church for exposing
That the Earth was not at the center of the universe
 So in 1616, they already had control
Of what they thought you and I were allowed to know
 They knew the world wasn't flat
But that was knowledge we weren't supposed to have
 They knew all about the new world
Way before Christopher Columbus set sail
 Witness the rebirth of Atlantis
 And we're all apart of it
What a beautiful fucking time to be alive, ah?
 You know I'm not surprised
The Illuminati had to keep it a secret
 I'm surrounded by fucking idiots
 Jesus fucking, fucking Christ
 Until the end of time
 The fire burns on high
 Until the end of time
 The fire burns inside
 My curiosity leads me to Zion
 Wake the fuck up
So if you got 'em, light 'em up, warriors
So if you got 'em, light 'em up, warriors
