Make A Sound

Autopilot

I don't know if we'll make it home
All we can do for now is hope
I don't know if we'll make it home
Water all around could swell and wash us all away, awayAnd if we never set our feet on land again
This will be one lesson I will not forgetAnd if you drown
You wont even make a sound
You'll just swallow water down
At the bottom you'll find out that it's quiet when you drownI'm losing track of all the days
Lost inside a life boat drifting out with all the waves, the waves
And some will find their way by looking towards the sky
And some will leave their fate up to these ocean tidesAnd if you drown
You won't even make a sound
You'll just swallow water down
At the bottom you'll find out that it's quiet when you drownAnd when you drown
You'll never even make a sound
And when you drown
You're gonna swallow water down
(Below)
The water gets so heavy
The water gets so heavy
(Below)
The water gets so heavy
The water's heavy when you drownYou won't even make a sound
You'll just swallow water down
At the bottom you'll find out that it's quiet when you drownYou'll never even make a sound
You'll just swallow water down
At the bottom you'll find out that it's quiet when you drown
