

Plus One

You Me at Six

Wait up for my call
'Cause I want it all
I've chased for so long
My time has come I don't say much
With poise or grace
I'll come of age
In this town on this day
The wrong song, the wrong place
To say this to your face I'll come close, I'll come here
I'll come loud And come clear That look in your eyes
Says you're mine on this day
The wrong time, the wrong place
To say this to your face
But I want you when I need you
Every single night and day
