

# You're Running Wild

**Buddy & Julie Miller**

You make my heart beat too fast  
You make me want this to last  
You make me spend all my money  
Oh I think I love you honey You make me think I could miss you  
You make me think I should kiss you  
You make me want your affection  
We need to make a connection You're so angelic  
I'm psychedelic with emotion  
And I can't come down  
Well my heart was playing dead  
But love changes everything around I wanna ride in your car  
I wanna know where you are  
Why don't you make me your fool  
Come on baby take me to school You make me want to be sweet  
You make me walk down your street  
You make me dance to your beat  
I'm gonna save you a seat You're making me lose my focus  
You've got some bad hocus pocus  
You make me think you're clever  
I'm gonna love you forever
