

# Alaska

## Fairweather

Paper cuts leave trails  
A good distraction  
Is what I got to.I've got this corner window  
I've got five days of winter this routine whitewall  
It takes All This All This TIME, TIME and Color, TIME, TIME and Color.Pay for always bills  
to get protection against killing of days  
and it's you and you and you and you and you,  
you take all this all this time This time.It's Alright..Stay In Tonight.
