

# One Track Mind

[Cyndi Lauper](#)

Got a one track mind Something's happening  
I want everything  
What does the moment bring  
I want it now (Got a one track mind)  
I want it, I need it  
I really think so  
(Got a one track mind) (Got a one track mind)  
(Got a one track mind) People say to me  
Mind my Q's and P's  
Why do they bother me  
Something inside Comes over me  
I want it, I need it  
(Got a one track mind)  
I really think so (Got a one track mind)  
(I got a one track mind)  
(Got a one track mind) I climb up the stairs  
I sit up and stare  
But nobody's there  
I walk ahead (Got a one track mind)  
You fall behind  
Another victim  
(Got a one track mind) I want everything  
And I want it now!
