

Gunned Down

G.B.H.

An easy job but it went wrong, I could not understand.

But how could they stop me with this magnum in my hand ?Just a kid now he always will be.

Gunned down gunned down.

Fell like a stone in a war of his own.It can blow a hole in a steel door it can blow a hole in you.

It can blow the guts out of any cop, but then what would I do ?The blood is spilt it burns my eyes a pain I cannot bear.

I'm lying in the gutter crying in despair.
