No Pressure

K'jon

So here I am and I'm ready to
Talk all through the night if you want to
We'll do whatever you wanna do, see, I'll make you understand
I won't be the man to let you down 'coz baby, I'll be around, yeah
And girl, I know that you've been hurt before
Let me reassure you there's only good intentions
If you'll relax and let your feelings flow
Soon you'll know
Girl, there ain't no pressure
We'll do it the way you like to
Just remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there ain't no pressure on you
And there you are right in front of me
My soul sister and my queen ain't nobody else compares
The way you look and the things you say
Amazes me in each and every way and I'm reminded every day
'Coz girl, I know that you've been hurt before
You can't take no more of all the false presences
So let me take this chance to ease your mind
We can take our time
Girl, there ain't no pressure
We'll do it the way you like to
Just remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there ain't no pressure on you
Pressure
Like to
Remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember

That there ain't no pressure on you
And girl, I know that you've been hurt before
Yeah
Girl, there ain't no pressure
We'll do it the way you like to
Just remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there ain't no pressure on you
Girl, there ain't no pressure
We'll do it the way you like to
Just remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there ain't no pressure on you
There ain't no pressure
Do it the way you like to
Remember
I will, I will always be here for you
Whenever
Weather
Remember
No pressure on you
