

Thru My Eyes

Phil Collins

It's never where you think you'll find it
The thing, you think you're looking for
It could take you all your lifetime
And still you'd never quite be sure You could look everywhere
Because you know it's there
Somewhere beneath the sky Too close and you'll get burned
There's no lesson learned
Yet some people pass it by You'll see things different
When you look thru my eyes
Things are different
If you see what I see Just look closely
And you'll see thru my eyes
It could be different
You'll see how it could be
If you can see, me You may need help
To find your way home
Those who brought
You here have flown The road you take
Is full of hope or sadness
The choice you make
Will be your own But you're not alone in there
Just say hello in there
'Cause there are many just like you
Just like you They'll help you find some way
To make it all the way
They'll tell you all you have to do You'll see things different
When you look thru my eyes
Things are different
If you see what I see Just look closely
And you'll see thru my eyes
It could be different
You'll see how it could be
If you can see, me No one warns you
Of the heartache
No one can hide
You from the storm But from the shadows
There will come the sunshine
A place to dry
And keep you warm Though no one tells you how

Your heart's beating faster now
Getting stronger day by day Suddenly it's clear
What you seek is near
It's what you learn
Along the way It's never where
You think you'll find it
The thing, you think
You're looking for Well, it could take
You all of your lifetime
Still you'll never quite be sure You'll find it
You'll find it
Just look closer You'll find it
Look closer
It's there You'll find it
You'll find it
You'll find it
If you look closer Look closer
Look closer
Look closer You're gonna find it
