

Wanna Be Where You Are

M2m

Here I go again
Standing in your arms crying
Here you go again
Make me forget everything
You keep smiling
They say our love is just a phase
That it's just for some days
But I'm going so far
I wanna be where you are
He loves me
He loves me
Here I go again
Calling you every day
And here you go again
Make me forget the longing
I love everything that you say
They say our love is just a phase
Who believes that anyway?
'Cause I'm going so far
I wanna be where you are
He loves me
He loves me
I wanna be, yeah
I wanna be where you are
He loves me
He loves me
Here I go again
Standing in your arms crying
It starts all over again
But baby, I love you
I wanna be where you are
