

# Shredded Humans

## Cannibal Corpse

Early hours, open road, family of five  
On their way home having enjoyed a day in the sun  
Their encounter with gore has just begun  
A homicidal fool not knowing left from right Now has the family in his sight  
Trying to perceive if he's blind or insane  
He steers his car into the other lane  
Both of them collide, expressions horrified Head on at full speed, the vultures will soon feed  
The father of three was impaled on the wheel  
As his skull became a part of the dash  
His eyeballs ejected his sight unaffected He saw his own organs collapse  
His seatbelt was useless for holding him back  
It simply cut him in two legs were crushed  
Out leaked pus as his spinal cord took off and flew The mother took flight through the glass  
And ended up impaled on a sign  
Her intestines stretched from the car  
Down the road for a quarter of a mile Fourth child on the way, won't live another day  
Fetus on the road, with mangled little bones  
Little children fly, not a chance to wonder why  
Smashed against the ceiling, all their skin burning and peeling Shards of glass explode, chest and skull now  
implode  
Corpses they've become, and graves will have to be dug  
Underneath the wheels, burning rubber on your face  
Bleeding from your eyes, the slaughtered victims lies Knowing what he's done, he just backs up one more time  
Laughing at the mess, a pile of meat on the street  
One child left slowly dying now, arteries gushing blood  
Now it's time to feed on flesh, the gore has just begun Early hours, open road, family of five  
On their way home having enjoyed a day in the sun  
Their encounter with gore has just begun  
A homicidal fool not knowing left from right Now has the family in his sight  
Trying to perceive if he's blind or insane  
He steers his car into the other lane The look of death in my eye surely no-one will survive  
Just a pile of mush left to dry in the sun  
I see my fresh kill left in the road  
Remains of your bodies mangled and torn One child left slowly dying now, arteries gushing blood  
Now it's time to feed on flesh, the gore has just begun
