Super Normal

Wank

doo da
normal is inside of your head
who are you?
nothing ever stays the same
i'd love to know you love yourself
it's the key to livin in this world
don't hide your smile just let it go
god knows it aint easy
to demonstrate such grace
your love is like a rainbow
look within yourself amazed
yeah
to me you're super normal
brighter than the morning sun
always supernormal
shining til the day is done and then some
doo da
i understand it drives you mad
strangers seem to stare at you
and wonder what your all about
tell them your a friend of mine
i think about you all the time
you've opened up my eyes
rhonda do you hear me?
'cause what i am trying to say
is i believe in you girl
cause you've got everything
you got everything yeah
to me you're super normal
brighter than the morning sun
always super normal
shining til the day is done
and then some
doo da well i think you're super normal
doo da well i think you're super normal
doo da well it think your i think your i think your..
put that chair down
there's no need to fight
this song's for you

cause i really think you're something else
normal is inside of your head
who are you?
yeah i believe in you
to me your super normal
brighter than the morning sun
always super normal
shining til the day is done
to me your super normal
brighter than the morning sun
always super normal
shining til the day is done and then some
doo da i think your super normal
doo da i think your super normal
doo da i think your super normal
yeah normal is inside of your head
